

HEROES IN THE TRENCHES.

Paris, Feb. 23.—These men in the trenches must have incessant vigilance against sudden attacks by the enemy. The men who serve the artillery fire day and night oftentimes at an enemy that is never seen.

Medical science will save more lives this year than war will take, no matter how terrifically murderous that war may be. Then, too, the food supply is very carefully looked after by the committee. The food supply of the soldiers must be wholesome. Living in the open air, the men are able to digest back-lash with great relish, Napoleon said, "An army fights on its stomach." A man with a weak stomach is a great size to be a poor fighter. It is difficult, almost impossible for any one, man or woman, if digestion is poor, to succeed in business or socially—or to enjoy life. In tablet or liquid form Dr. Pierce's Golden Medical Discovery helps weak stomachs to strong, healthy action, enables them to digest the food that makes the good, rich, red blood which nourishes the entire body.

This vegetable remedy, to a great extent, puts the liver into activity—cleans the machinery of the human system. Those who spend their working hours behind the counters, or in the home are rejuvenated into vigorous health.

It has brought relief to many thousands every year for nearly fifty years. It relieves the digestive system, restores your former health and strength. At least you owe it to yourself to give it a trial. Sold by medicine dealers. Sold 50 cents for box of tablets—Dr. Pierce's "Invaluable" Novel and Surgical Toilet—Bulfinch, N. Y.

CALOMEL SALIVATES

AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There is no reason why a person should take calomel, salivating calomel when it costs but a large bottle of Dose's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which starts your liver into normal action, but it doesn't make you sick and doesn't salivate.

Children and grown folks can take Dose's Liver Tonic, because it is perfectly harmless. Calomel is a dangerous drug. It attacks and attacks your system. That dose of nasty calomel today and you will feel weak, sick and nauseated to-morrow. Don't lose a day's work by taking a spoonful of Dose's Liver Tonic instead. And you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dose's Liver Tonic acts better than horrible calomel, your money is waiting for you.—(ADVT.)

Lime Treatment In Tuberculosis

In the May 29, 1912, issue of the Journal of the American Medical Association appeared this statement concerning calcium chloride in the treatment of pulmonary tuberculosis (continued):

"Under the systematic, continued and persistent regime of calcium accumulation, patients have seen a number of their patients, under an examination or partial examination of the lung, which time medicine would appear to contribute to the walking off of the disease. Head in hand with this kind of regime, the system has up of a number of months, which finally disappear, and the patients are discharged with healed lung tuberculosis."

Liberal medical journals seldom speak so positively of a medicine that from many countries has been recommended. The results of the use of Dose's Alternative in this respect for pulmonary tuberculosis and allied troubles, affecting the human system, is a measure to be attributed to the manner in which this remedy is combined with other ingredients as to be easily assimilated by the system, and it does not irritate the stomach.

Dose's Alternative contains no opiate, nor sedative or habit-forming drugs, so it is safe to use for your druggist, or out of it, and is sold by all druggists. Philadelphia, Pa. Sold by all druggists. Druggists in Atlanta, Ga.

Valuable Item for Men

Health and strength hitherto unknown will be felt surging in rich red blood through the arteries and veins and life's greatest ambition may be realized as never before if following special treatment is followed by those men and women, who are stricken with that most dreaded of all afflictions—chronic exhaustion, accompanied with such symptoms as extreme nervousness, insomnia, cold extremities, melan- cholia, headache, constipation and irregularity of the bowels, and the result of these is a constant state of physical distress, timidity in venturing and a general inability to act naturally at all times as other people do. Lack of poise and equilibrium in men is a constant source of embarrassment even when the public least suspects it. For the treatment of those who want a restoration to full, bounding health and all the happiness accompanying it, the following home treatment is given. It demands no opiate or habit-forming drugs whatever.

The treatment consists of (1) three-grain cod-liver oil tablets, packed in sealed tubes, and widely prescribed and dispensed by physicians and well stocked pharmacists. Full directions for self-administration now accompany each tube. It is claimed that these tablets possess the most wonderful tonic-involving powers which can be experienced after taking them.—(ADVT.)

ROME ROTARIANS ARE WELCOMED TO ATLANTA

Day of Pleasure Will Close With Banquet at Capital City Club

Atlanta opened her gates and her heart Tuesday to the Rotarians of Rome.

Arriving over the Southern railroad in a private car which reached the Terminal station at 11:15 o'clock in the morning, fifty members of the Rome Rotary club—distinctive in Rotary because it is the smallest town in the world to have a Rotary club—were met by practically the entire membership of the Atlanta Rotary club, host to the world to have a Rotary club.

The Romeans were then escorted in automobiles to the Hotel Wincoff for a get-together luncheon. "Get-out-out" and "get-in-together" committee for both clubs took charge of affairs, and for many minutes had passed, Roman and Atlanta members were calling each other by their first names and the genial spirit of fellowship was in the air. The Rotary clubs the world over resigned.

ROMANS AS HOSTS. At 1 o'clock the tables were turned and the Romeans became hosts to the Atlanta Rotarians at a luncheon at Kuhn's cafe. George Smith, president of the Rome club, presided, and Walter S. Colburn, Harry Wright and A. W. Van House proceeded to read such a number of surprises that the affair became a real carnival of fun.

Rotarians then set out from the Wincoff on a thirty-three-mile automobile tour of the city, which included the club, Anley Park, Piedmont Driving club, Druid Hills Golf club, Grant park and the federal prison.

The principal speakers will be Rotarian W. T. Anderson, vice president of the Atlanta Rotary club and editor of the Macon Telegraph, and Rotarian Jack J. McGarrity, secretary of the Rome Rotary club and editor of the Rome Tribune-Herald.

TOAST TO WILSON. During the evening toasts will be offered by President Wilson, the United States, and President Frank L. Muhlenthal, of the International Association of Rotary clubs. Through an arrangement secured by Rotarian Evelyn Harf, publicity man for the Southern Bell Telephone and Telegraph company, long distance greetings will be sent and received from President Muhlenthal, speaking from Toledo, Ohio; International Secretary Perry, speaking from Chicago and President Harf, of the Philadelphia club. Banquets celebrating the anniversary are being given in all these cities. Telegrams will also be sent and received from Rotary clubs all over the country.

COTTON MILL OWNERS WILL BE PROSECUTED

Failure to Provide Seats for Female Employees Being Investigated

It was announced at the department of commerce and labor Tuesday that Commissioner Hall J. Stanley would shortly ask the indictment of several owners and officials of cotton mills in Georgia for violating the law by failing to provide seats for female employees in their spinning rooms.

Commissioner Stanley declined to give out the names of the offending manufacturers or the names of the plants are located, stating that he preferred that this information be obtained after the indictments are returned. It was also stated at the department that Commissioner Stanley is presently engaged in inspecting the manufacturing plants of Georgia with reference to the proper observance of the child labor law passed last year and which went into effect on Jan. 1. Rumor has it that he has decided upon several prosecutions under this act, and that one man who furnished false information as to the age of his child will also be prosecuted.

IT'S TRUE! LOU CASTRO IS GOING TO GRIFFIN

Will Manage Griffin House and
Baseball Club on the
Side

Count Lou Castro, ex-ball player, ex-painter and extra good fellow, raconteur and entertainer, is soon to add another to his long list of professions. This time he is going to keep hotel. Where? Come up closer, and listen:

Griffin? You see, Sam Pearson, who sells autos in Atlanta, owns the Griffin house, one of the most famous one-night stands in Georgia. They say the most extensive and assorted collection of stage costumes and accessories in America is in the Griffin house, left there as a souvenir of regard and in lieu of board bills by numerous actors and actresses coming from the British Imperial Dramatic troupe in "Michael Strogoff," down to a real of cracked film representing act III of "The White Slave." Which has nothing to do with the case, whatever it takes a manager, not money, to run a hotel.

Mr. Pearson approached Count Castro in the latter's official capacity as assistant superintendent of the Atlanta club and submitted a proposition. It was to take over the Griffin house, the count just couldn't turn it down. He was to move on Griffin not later than next Sunday, assume charge of the Griffin house, its bell boys, waiters, chef, assistant chef, room boys, and wine cellar. There's nothing in the wine cellar, since Griffin put a \$10,000 tax on high-beer, but it's a fine place to keep a dog.

And besides, Mr. Castro expects to manage the Griffin baseball club, of the well known Georgia-Alabama league. Griffin having raised a pot, purchased Selma's franchise in that league and naturally, with a man like Castro in town, no other manager would be considered. The congratulations of Lou Castro's many friends will be signed only with regret that his new duties remove him from Atlanta and the club, where he has held forth so long as a greaser, entertainer, pourer of oil on troubled waters, and general good fellow. He has played many roles in his day and those who know him believe that he will be as brilliant a housekeeper as he was a houseman. And besides, it's only a short time to Griffin, and the auto road to fine.

"Come on down, you fellows," says Lou. "I know a way to fry chicken that I learned in the Cotton States league. Now, I won't let you. Come down and I'll show you."

Feel Blue—or Just Stupid?

Sluggish bowels and torpid liver usually go together and are the cause of being long for constipation to produce a bad condition—a feeling of languor or listlessness, the "blues," headache, palpitation or other malady. Indeed, when in this condition the system is in more serious illness and is not able to throw off disease. Foley Cathartic Tablets are wholesome laxative and cleansing cathartics. They act without inconvenience, griping or sickening. Sold everywhere.—(Adv.)

This Man Has Taken One Of Hardest Jobs in World

Baron Burian

Baron Burian is the man who has assumed Austria's portfolio as minister of foreign affairs. He is a Hungarian, and his appointment was caused by the feeling of revolt throughout Hungary because the army's resistance to the Huns was demoralized. The Huns have already achieved the purpose for which he was appointed, for by the aid of General von Hindenburg, the Russians have been compelled to give up their hold on Hungary. This photograph was taken in Berlin, where Burian had gone for a consultation with the Kaiser.

COOLNESS OF TEACHER AVERTS PANIC IN FIRE

Presence of mind on the part of Miss Campbell, principal of the Lakewood Heights school on Sawtelle avenue, averted a panic among 400 pupils Monday when fire broke out on the roof. Someone ran into the building, shouting "Fire," but Miss Campbell, by giving the fire drill signal, marched all of the pupils out of the school with no confusion. The fire damaged the roof only slightly.

MARSHALL NELMS BACK FROM JOURNEY TO TEXAS

Marshall Nelms, brother of Beatrice Nelms and Lois Nelms Dennis, the sisters whose disappearance from Atlanta last summer has never been explained, has been in Atlanta from Texas, and states that Victor E. Jones and his wife will soon be brought to Fulton county for trial under indictment charging larceny after trust of \$4,000.

Lent Services in Decatur
Holy Trinity Episcopal church in Decatur is holding services every Thursday night at 8 o'clock during Lent, special prayers taking the services. Next Thursday the service will be taken by Rev. Robert E. Gribbin, assistant rector of St. Luke's, a member of the leading Episcopal clergy will follow, including Dean Atkinson, of the cathedral, and Dr. Wilmer.

DEPUTY ARRESTED BY NEGRO SCRUB-WOMAN

"Aunt" Clara Watches Electric
Globes at New Court
House

So thoroughly have the Fulton county authorities imbued people visiting the new court house with a determination to protect the building from defacement and to stop the thievery of electric light globes and other articles from the building, that even the negro scrub women have joined in the crusade.

Clara Guss, an old colored woman of social disposition who scrubs on the first floor, went so far the other day in her zeal to catch a thief that she arrested an out-of-town deputy sheriff who had dropped in with a friend to pay his respects to Tax Collector A. P. Stewart.

Going into the tax collector's office after Mr. Stewart and his associates had left for the day, the deputy and his friend stepped back in the day to get a drink of water, and as they emerged into the marble-walled corridor, they were confronted by "Aunt" Clara and placed under arrest in the approved Decatur street fashion of a seizure of the arm.

They told "Aunt" Clara they had bothered nothing and offered to let her search their pockets for stolen electric light bulbs, but she refused to be drawn into a controversy. She set up a loud howl for the elevator boy and the superintendent of the building, who promptly came to her assistance on the run. The deputy and his friend soon convinced them they were law-abiding citizens, and were released and allowed to go their way, but before leaving they stopped to praise "Aunt" Clara for her loyal spirit.

DR. ATKINSON SPEAKS AT LENTEN SERVICES

Dr. John R. Atkinson, dean of St. Philip's cathedral, was the speaker again Tuesday at the Episcopal Lenten services which are being held daily from 12:10 to 12:30 o'clock in the Steiner-Emery building, veldout and Fessenden streets.

Wednesday, Dr. C. B. Wilmer, rector of St. Luke's church, will appear and speak at 12:10 o'clock. The services are designed to afford the busy man and woman a chance to observe Lent without interfering with business.

Constipation a Penalty of Age

Nothing is so essential to health in advancing age as keeping the bowels open. It makes one feel younger and fresher and forestalls colds, plums, fevers, and other dependent ills. Cathartics and purgatives are violent and drastic in action and should be avoided. A mild, effective laxative-constipant, recommended by physicians and thousands who have used it, is the combination of simple herbs with pepsin sold by druggists everywhere under the name of Dr. Caldwell's Syrup Pepsin. The price is fifty cents and one dollar a bottle. Write for free trial bottle to Dr. W. S. Caldwell, 1115 Washington St., Monticello, Ill.

POLICE OFFICER HURT IN AUTO COLLISION

Chall Officer R. M. Long, hurrying on his motorcycle to investigate a supposed

burglary about 2 o'clock Tuesday morning collided at Five Points with an automobile driven by J. W. Howard, of 184 1-2 North Pryor street. The officer was knocked off his motorcycle and dragged a number of feet, it

is said. When picked up he was badly bruised and cut, but no bones were broken. His injuries were dressed at the Grady hospital and he was later transferred to his home, 694 East Park street.

Special Editorial Departments devoted to iron, steel, coal, coke, hardware, machine tools, woodworking machinery, lumber, naval stores and other special lines peculiar to the development of the natural resources of the South, will appear each month.

DR. CHAPMAN PREACHES ON THE HOLY SPIRIT

Large Audience Hears Inspiring Sermon at Tabernacle Tuesday Afternoon

In spite of inclement weather a large audience attended the afternoon services of the Chapman-Alexander revival Tuesday and was rewarded with a fine sermon by Dr. Chapman on the subject of the Holy Spirit.

His text was taken from the second verse of the nineteenth chapter of Acts: "Have ye received the Holy Spirit since ye believed?"

Spiritual power in the daily religious life was Dr. Chapman's theme, and in the development of his argument he showed that simple acceptance of Christ is not sufficient, that away toward one's nature must be thrown open for the spirit to enter and abide.

The sermon followed:

This is one of the most important questions which can be put to a Christian. The revised version makes the text read: "Did you receive the Holy Spirit when you believed?" But it is a matter of small importance to me whether you take the authorized version or the revised. The question is: "Are you living today as God would have you?" Is yours a spirit-filled life?—are you consistent in your romances—your place of business and with your friends?

CAN GOD TRUST YOU?

Are you in such a position with God that he could trust you with His power? I asked the question of the text one day in a professor in one of the western universities, and he told me first that he did not know what I meant by it, but after I had explained he went away and came back later to say that he had made the complete surrender, and that he had been the means of leading out of his students to Christ.

Some years later I heard that all of those students had not their faces either toward the ministry or the mission field.

I am not talking to you about sinless-ness. Regeneration does not mean the eradication of the old nature, but the implanting of a new one. Paul does not write the warring of the two—

an living a worldly life, if I am selfish

and inconsistent. My fleshly nature is in the ascendancy. If I have received the Holy Ghost into my life, the spiritual nature has power. What I am talking about is the yielding of one's self to God. When I accept Christ, as my Savior I am saved, but when I then open every door of my nature for Him to come in and abide, when I place Him on the throne, then the spirit of God comes, and I am in possession of His power.

God is no respecter of persons in the matter of the bestowment of power. He desires the one in whose veins the bluest blood flows, when He is seeking the one with the highest social position, the surrender of fifty such women. But He wants the women also who stand at the capitol and the social life, the woman who feels the pinch of poverty, whose shoulders are bent with many burdens, who has aged before her time because of care. He wants her that he may work through her for her household, and, as a matter of fact, the greatest ministers, the greatest statesmen, and the greatest leaders of men from our times.

I think I know the reason why we have not received the Holy Ghost for some clear command. God called us to the mission field, to the Sunday school, to some special effort in His behalf, and we said, "No," and man is always a barrier to the bestowment of God's power. Or it may be that we are not right with our fellowmen. You cannot have a difference with another and not make it right. You cannot be inconsistent and not confess it. You cannot be sinful and not repent of it without lifting the barrier in the way of working out of God's will in your life. Or it may be that we have not confessed our sins.

CONFESSED HIS SIN.

I know of a man who took \$200 from the cash box expecting to pay it back again, kept it for twelve years, prospered in a business way, but had no spiritual power. One day he confessed his sin and restored the stolen money with compound interest, and immediately he was restored to the kingdom. All of his children came into the kingdom and he became a marvel of spiritual blessing to others. If we should receive the Holy Ghost the work in this city would move forward with a bound, would be won to Jesus Christ, they would come in to our own household. Those of whom we have heard so much concerned would be seeking Christ for themselves.

The Bible would become a new book. It is not possible to be as God would have us as Christians, if we are neglectful of the Bible. A great change would come into our lives.

He found her in the vilest den of iniquity in the city, gave her a pink robe returned. "Please," she said, "don't you help me," and my friend, a delicate refined woman, stopped down and kissed her, carried her into the house, bathed her with her own hands, put her in her daughter's bed and led her to Christ. She became one of the mightiest spiritual forces among women in our city, and she had led sixty girls like herself to our city, blessing God for the change wrought, the same change which might come to many of us, did we but view our lives fully to Christ.

The state of excessive litigation, the company shows a substantial gain in its condition and should be continued in business, for with the local support of its policyholders it will eventually be in a position to pay all maturing obligations and protect all interests involved.

Smith, state insurance commissioner, states that premiums are being paid regularly by policyholders, and that there is no difficulty in writing new business. It is believed the company will be reorganized and resume business actively before the first of next year.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save your hair! Get a 25 cent bottle of Danderine right now.

Thin, brittle, colorless and craggy hair is mute evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life, eventually producing a feverishness and itching of the scalp, which if not relieved, will cause the hair roots to shrivel, loosen and die—the hair falls out.

A little Danderine tonight—some any time—will surely save your hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.—(Advt.)

The members of the Episcopal churches in the city and their friends are invited to attend.

TAKING CALOMEL FOR CONSTIPATION

LIKE BORROWING FROM MONEY BANK

Every Dose Means a Bigger One Next Month. Calomel Shock System Now Temporary Action Only. Weakens, Seeks Organ of Natural Action.

Calomel is a powerful mercurial drug. It crashes into the sour bile on the stomach and works it up, and the shock and working up of the bile forces liver and bowels to action. But with this forcible movement and the vomiting and the awful nausea, the waste system is weakened, bowels paralyzed, and a relaxing dose of castor oil or strong salts must be taken.

Now as only the sour bile has been removed from the stomach, and nothing done to correct what caused this bile and constipation, in a few weeks is needed another and a stronger shaking up.

JACOBS' LIVER SALT acts upon the bile as surely as calomel, but by stimulation, not force. It removes the cause of the trouble. It dissolves the poisonous uric acid that has accumulated in the system and carries it off in the urine, and it quickly flushes the alimentary tract and cleanses it of all clogging waste and fermentation. And it combines easily with the gastric juices of the stomach and supplies the deficient substances that nature uses to digest food and prevent uric acid deposits.

JACOBS' LIVER SALT is a natural and quick remedy for constipation, biliousness, indigestion, sour stomach, rheumatism, gout, neuralgia, and all other hepatic ailments. It is effervescent and agreeable, quick to act, very mild and sure. No other liver medicine has the same natural, stimulating effect. Don't take a substitute, 1-5 lb. jar 55c at drugists, Jacobs' Pharmacy, Atlanta, Ga.—(Advt.)

Five Hundred Women's and Misses' Suits Have Arrived Within the Month That Your ONE May Be Just What You Would Have It

We have heard it remarked in vague ways now and then, as if it were a sort of undercurrent of belief, that many stores were not showing the usual varieties of suits--that they had limited their purchases this Spring.

We can but speak for ourselves--and so we wish to go on record with this statement--

We are showing right now great numbers, greater varieties of Suits for Women and Misses than we ever have in the spring.

There are no ifs, ands or exceptions for this statement--the suits are here and you shall see them.

Why this most lavish display? Well, we found conditions most favorable for the store that had the temerity to do a big thing. The styles were so distinctive, so varied, that it was possible to gather greater numbers of **exclusive models** than ever before.

And we gathered them, full of the confidence that the women of Atlanta deserved, and would appreciate the privilege of choosing their suits from the broadest variety of the successful styles that were brought out this spring.

Here they are then, one after another, one **different** from another. For it isn't the quantity of the suits that we would emphasize but the quantity of **different, distinctive models** that you may select your one from. **There's the point**, your one suit may be one of seemingly **infinite variety**.

The Fabrics

The styles are developed so variously that correctness really means nothing more than individual choice. The silks used this season are failles and poplins; the woolens are serges, gabardines, covert cloths--many of them **cravenetted**--whipcords, poplins, English checks, not only in black and white, but brown, green and blue and white--then there are English suitings of many sorts.

The Colors

We do not recall a season that has brought a more distinctive color card. We could name a half dozen different shades of blue that are good--including navy, Joffre and Rocky Mountain; a Palm Beach sand is particularly smart; grays are in favor, including battleship, Gettysburg and Nevada, silver and putty. There is a strong liking for black and white checks. An easy season for shades.

The Styles

They run the gamut of variety--with becomingness as the keynote. For the slight figure, coats with raised waist line, for the full figure coats with waist line clearly marked. Belts are very prominent. There are severely tailored coats and coats that show a good bit of trimming after the military idea. Skirts are novel--with more fullness than ever--often plain, often shirred at the waist.

The price range goes easily from \$17.85 up and up to \$85, with any number of stops on the way--notable excellence at \$25, \$29.75 and \$35

Slow milling means quality.

If you would look into a mill where Valier's Dainty Flour is made, you would see how slowly the work is done—so slowly that the flour seems to float from the white heart of the wheat kernels. We could make it faster; but it wouldn't be nearly so fine; nor bake nearly so nice.

Valier's Dainty Flour

sometimes costs a trifle more by the sack, but being so fine, it makes more in baking. And then it makes a whiter, lighter, more delicious biscuit—and cake and pastry too. Get a sack of this superior flour today.

INTERESTING GOSSIP OF INTERESTING PEOPLE

Plans for a national celebration of the 20th anniversary of the birth of William Shakespeare were made at a meeting in New York held at the rooms of the Russell Sage Foundation on Thursday afternoon. A resolution was passed giving the New York Center of the Drama League of America authority to form a committee to arrange for the celebration in New York. Percival Knapp, chairman of the national committee of the league, outlined the general plan of the celebration, and talks were made by Otto Skinner, Gustav Borglum, Mrs. James Madison Bass, Dr. Thomas J. Wood and Dr. William R. Ingham.

Dogs of War on Exhibition.
A dispatch from London to the New York Herald gives an interesting account of the exhibition of dogs who have performed notable deeds of heroism during the war.

Several of the dogs, who have won the first prize among the fifteen dogs who have been distinguished themselves by saving the lives of men during the war, are on exhibition at the Agricultural hall, where many hundred of canine aristocrats are bunched.

Leslie is the property of Mrs. M. Atkins, of the Pilot Boat hotel, Lynde Regie, and her dead was the property of the life of Seaman W. S. Cowan, a survivor of the Formosa. After being taken from the boat, Cowan was placed on the floor of the Pilot Boat hotel, where he was found by the life of Seaman W. S. Cowan, a survivor of the Formosa.

When Leslie entered the room she at once lay down alongside the man who had been killed, and began to lick his face. This continued for half an hour, when Leslie's behavior and size of her attracted notice. It was the dog's dead who was the property of the life of Seaman W. S. Cowan, a survivor of the Formosa.

Another movement to establish a national theater in New York has been launched with Fred C. Whitney as the moving spirit.

Mr. Whitney plans the establishment of a self-supporting organization of 5,000 subscribers. The first season at the rate of \$2 a week, each subscriber by paying \$100 to obtain a seat each week for the entire season, inasmuch as a different play will be presented weekly, it is the manager's hope of a large company. A spacious theater will also be built on the site of the American theater.

Mr. Whitney has not yet selected his playhouse. It is said that he has his eye on the Century theater. The effort will bear the auspicious title of the "National theater."

The plays will be drawn from the classic and standard dramas of all literatures. But few American names appear in the prospectus, but Mr. Whitney is expected to develop native writing by devoting certain weeks of the season to the production of plays by American authors on American subjects. The price of seats will range from 25 cents to \$100.

Each play presented will receive the same careful attention as if it were intended for a season's run.

Celebration at Craigie House
An interesting and important afternoon was the patriotic entertainment given by the Atlanta chapter of D. A. B. at Craigie house in celebration of Washington's birthday.

In the absence of the first agent, Mrs. J. H. High, Charles Rice, vice president, presided.

A bright musical program was rendered by an orchestra and Mrs. Albert Woolley sang very delightfully. An interesting address on Washington was made by the chairman, Dr. Little, which was heard with interest and attention.

Mrs. W. W. Womble gave a reading. The tea table was ornamented with a profusion of early spring blossoms including violets, longhairs and blue hyacinths. At the close of the program a social hour was enjoyed by members and friends.

From a centerpiece of rich chrysanthemums, white blue and white ribbons reached from the chandelier to the four corners of the table. The table was in the same dainty colors. Little blue birds, jauntily perched on the tea glasses, held in their bills the cards bearing the name of each guest, and were given as souvenirs of the happy occasion.

How Much Are Your Family Food Bills Per Week?
The trouble about this high cost of living problem is that we hear one side of the story—it is all against the maker or seller of staples. But the other end of the story, Food Buyer? Let's take a glance at your weekly bill.

What about Paul Macaroni? The same authority says that "Macaroni is absorbed almost in its entirety"—that is, it is practically all gone in the making of bread, butter, coffee, tea, fruit Macaroni is made from durum wheat, is highly nutritious and well adapted for use in all climates and is a large package.

USING SOAP SPOILS THE HAIR

Soap should be used very sparingly, if at all, if you want to keep your hair looking its best. Most soaps and shampoos contain a certain amount of alkali. This alkali dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary multifold coconut oil which is pure and greasy, is cheaper and better than soap or anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly, remove the dirt with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dirt, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and shiny, bright, lustrous, fluffy and easy to manage. You can get multifold coconut oil at any pharmacy, and a few ounces will supply every member of the family for months.—(Adv.)

ARE WOMEN NATURALLY DESPONDENT?

A prominent writer so claims. Women are constituted with a delicate organism and in nine cases out of ten mental depression may be attributed to an abnormal condition of the system, which expresses itself in nervousness, sleeplessness, backache, headaches, causing constant misery and as a result despondency. Lydia E. Pinkham's Vegetable Compound, a simple remedy made from roots and herbs, is the one great remedy for this condition. It goes to the root of the trouble and overcomes despondency.—(Adv.)

JUDGESHIP BILL MAY PASS HOUSE THIS WEEK

Identity of New Federal Jurist for Georgia May Be Governed by Amendment

WASHINGTON, Feb. 22.—It is now believed that the bill creating an additional federal judgeship for the southern district of Georgia will pass the house during the present week and it is expected that it will be amended to appear as if in the nature of a Senate amendment to the measure now pending in the Senate.

The bill as it now stands provides that after the passage of the bill the southern district shall have permanently two federal judges.

It is regarded as practically certain that in the event this amendment is passed, the house will appoint to the new judgeship, if, however, the house strikes out this amendment and provides that after the retirement of Judge Henry Fisher there shall be only one federal judge in the district, it is believed that Senator Hawley may be appointed to the new judgeship.

While, ostensibly, applicants for a position would not file their applications until after the election is held, Senator Smith has advised each one of the applicants to file at once.

He has prepared a list of the applicants and has sent it to him, and will file them with the attorney general today.

PENNSYLVANIA BANKER ASKS FOR OLIVER'S PHOTO

Check for \$350,000, Found in Dead Man's Pocket, Bears Banker's Name

LEESBURG, Va., Feb. 22.—A letter from J. T. McHenry, of the Columbia County National Bank, Va., was received by the chief of police here yesterday. It asks for a photograph of A. D. Oliver and other information. A check for \$350,000 bearing McHenry's signature was found on the body of Oliver, after he was assassinated last Wednesday night. Whether the check has a value is not stated in the letter, however. The signature on the check and the one on yesterday's letter are similar, say officials here.

It is reported here that Erik Blazer, of Graceland, Ohio, is on his way here to claim the body of Oliver, which has been buried in the latter's name. He thinks that Oliver is none other than his brother, Charles Blazer. Officials here, however, say that Oliver was killed more than forty, if that old, while the missing Ohio man is described as being fifty-two.

An outside judge is expected to preside at the commitment hearing on Wednesday, probably Judge Greer, of Marion county.

It is not hard to stop the hair from falling out and promote its growth if the right means are used. There is no hope for the scalp where the hair roots are dead and the scalp is shiny. However, to those who have not reached this condition, immediate steps should be taken to stop it before it is too late. There is a sure recipe which you can make at home, that will stop the hair from falling out, promote its growth and eradicate scalp eruptions and scalp humors. To a half pint of water add 1 oz. bay rum, a small box of Barbo Compound and 1-4 oz. of glycerine, and apply to the hair, rubbing with the finger tips, two or three times a week. These ingredients can be obtained at any drug store for a little cost and mixed at home. This not only promotes the growth of the hair, but darkens streaked, faded gray hair and makes it soft and glossy. (Adv.)

However, to those who have not reached this condition, immediate steps should be taken to stop it before it is too late. There is a sure recipe which you can make at home, that will stop the hair from falling out, promote its growth and eradicate scalp eruptions and scalp humors. To a half pint of water add 1 oz. bay rum, a small box of Barbo Compound and 1-4 oz. of glycerine, and apply to the hair, rubbing with the finger tips, two or three times a week. These ingredients can be obtained at any drug store for a little cost and mixed at home. This not only promotes the growth of the hair, but darkens streaked, faded gray hair and makes it soft and glossy. (Adv.)

Postponement of Bout Now Sure

Jack Johnson Will Be Unable to Reach Juarez in Time for Match on March 6

EL PASO, Tex., Feb. 23.—Virtual postponement of the Jack Johnson-Jess Willard boxing bout was admitted late today by the promoters. It was believed that Johnson could not arrive at Juarez, Mex., from Havana by any Mexican passport by March 6.

Jack Curley, the promoter, declared, however, that he believed Johnson would arrive at Juarez within a short time after the original date. Curley's officials have announced they will arrest Johnson on the ground that he is a fugitive from justice in the United States.

Johnson cabled from Cuba Monday that if it were considered impossible to hold the fight in Juarez the bout could be held at Havana. Curley, however, declared he would not consent since all matters had been arranged at Juarez. Curley declared that no other boxer would be substituted for Johnson. He said that Johnson would not leave a week's training at Juarez before the fight. This week, with the time needed for Johnson's trip through Mexico even should he encounter no great difficulty, would make it impossible for him to fight March 6.

Willard is continuing his training at his camp on this side of the boundary.

Whitney Gives Weight to Abel

The match, when Frank Whitney meets Jake Abel at the Blue Bird Thursday night, will reverse the situation so far as Whitney is concerned in the matter of poundage from what obtained when Frank boxed Jack White a short time since. In that battle, Whitney had some eight or nine pounds advantage in weight. Thursday's bout the Cedar Rapids boy will be giving away practically as much to his opponent.

Abel, according to those who have seen him fight lately, is very much heavier than he was when he boxed here the last time. He was then able to do 135 pounds weight, or even better, if required. But now he will scale well over 140. The two will come in at each weight, he will probably weigh 145, or possibly a bit more. Reports from Chattanooga state that Abel is working out diligently with Jack White and Terry Nelson, and that he is coming in in excellent shape. However, the latter is attending to his own training, and will put up no argument he may have to advance until he steps into the ring with the Chattanooga boxer.

Eddie Plank Is Married Now
QUINTON, Pa., Feb. 23.—Eddie Plank, former star left-handed pitcher of the Philadelphia Athletics and world's series hero, and who recently announced his marriage to Miss Anna C. Myers, of New Oxford, Pa., is now on his honeymoon trip to Florida.

After waivers had been asked on Plank by the Athletics at the close of last season he signed a Federal league contract.

Sullivan Wants Job as Umpire
CHICAGO, Feb. 23.—William J. Sullivan, veteran catcher of the Chicago Americans, who recently was unconditionally released, today applied to President Hal Johnson for a position as an umpire in the American league.

Sullivan has served the league as a pitcher for fourteen years, and has been with every rule of the game. He never has had any experience as a professional umpire, but has often handled exhibition games.

St. Louis Federalists Start for Camp
ST. LOUIS, Mo., Feb. 23.—The advance training squad of the St. Louis Federalists departed for Key West, Fla., late last night. Fielder Jones, manager of the team, and his wife, and the wife of the party. They will be joined at Key West by the remainder of the team about ten days. The entire party then will go to Havana, Cuba, for training until the opening of the season.

The fight was drawn, with Griffith winning the fourth, fifth and sixth rounds, while Shugrue outscored him. When the score sounded at the end of the fight, Griffith was in the center of the ring fighting hard.

Boys' High Five Meets Crack Marist Team in Championship Game This Afternoon

What promises to rival in point of fierceness the recent Columbus-Atlanta basketball game, will be the one to be staged this afternoon on the Wesleyan Memorial court between Boys' High and Marist college. The game will decide which is the better of the two teams, and which will finish the season on top. The boys will have a chance to win the title in the first game of the year, but in that game Boys' High was minus the services of two of their regulars, and they have improved in their playing considerably since then. Marist won when they played before, the count being 30 to 23. The winner of this game will probably finish the season in the lead.

However, even if Marist loses, they will still have a chance for the title. They have a postponed game with Donnell, which is to be played on the Deaneur court, and if they lose to Donnell, they will be tied with Boys' High.

The game is going to be a hummer, and it is a foregone conclusion that it will be a close one. The game will start promptly at 2 o'clock and 25 cents admission fee will be charged.

UP TO THE PITCHING.
Conkle Mack's 1915 fate is now strictly up to his pitchers. For four seasons his machine has batted its way through, saving some errand pitching by a fusillade of swats at the crucial epoch.

But unless Baker comes back and produces the succulent points and the savory cabbage, Mack must tighten his pitching defense at least 40 per cent to stick around the happy hunting grounds of old. Bressler, Shawkey, Bush, Franck and Wyckoff must come through as James, Rudolph and Tyler did for the Braves or there will be no midsummer jubilee about the spiked award of Shibe Park for some time to come.

SHORT PUTTS.
Many a short misad putts wrecks the good work of a long drive. He that controlleth his maul is greater than he that taketh a city; but he that sinketh a long putt is an abomination in the sight of his opponent.

WHAT WE ARE ROOTING FOR.
Ed Walsh to come back and stampede the field again with an average of eight victories out of ten starts.

Hans Wagner and Nap Lajoie to bat .350 and extend their infield war zones to old fashioned distances.

Tanks and Reds to back away from the soup trough, emerge from the zoo and finish in the first division.

Those who are blaming the Wards for an alleged effort to have the price of bread raised evidently never attempted to furnish financial backing for a new league.

SOME TIME AFTER COL. GRAY.
Pull many a putt, of purest ray serene. The duffer makes around the clubhouse hole. Pull many a pitch that lands upon the green. Until the barkeep's gathering in his roll.

Don Lippincott figures that 9.35 seconds for a 100 yards is the limit for human speed. But did any one ever time a ball player starting for the dining room in March?

THE UNEARNED INCREMENT.
Dear Sir: Can you tell me, without too much trouble, what percentage or proportion of runs made in a season is earned and how much is unearned?

Last season the Mackmen had 580 earned runs and 180 that were unearned. Detroit had 434 runs earned and 181 unearned. All told in the American league there were 4,986 runs scored, of which 3,414 were earned and 1,572 were gifts from the enemy. This would leave the earned runs rated at 74 per cent, and the unearned at 26. On an average about one previous tally of every four can be listed as an unearned increment, the result of a miscue by the enemy.

SOME BAKERYAN STATISTICS.
L. J. J.—Frank Baker will be twenty-nine years old on the 13th of March. He was born in Trappe, Md., and began his baseball career in Trappe, back in 1905, just ten years ago. He is five feet eleven inches tall and weighs 185 pounds. He joined the Mackmen in 1909 batting .205 for a starter.

Tommy, the 17th of next August, will be a long, tall day for Ted Meredith, the Pennsylvania flyer. He hasn't any race booked for Ted date, with nothing on hand to help him an evening.

THE OTHER PART.
Willard breaks the news that he is now in condition to last forty-five rounds without winking.

Isn't so much a matter of lasting forty-five rounds as it is of getting safely by the first fifteen or twenty. If the elongated White Hope can carry off the big Black stuff for half the distance he should center in under wars. It isn't probable that Johnson, after twenty rounds, will have enough left to dent the cuticle of a custard pie. But keeping out of his way for the first fifteen rounds without being torpedoes is something else.

Siamina is an uncertain proposition for any athlete beyond thirty-five. For a certain distance he may show all the speed and power he ever had. But when the Torpedo of Time suddenly hits a vulnerable spot the cavewalker arrives with amazing suddenness. Willard's program should be to hunt cover for the first twenty rounds and then start a blockade mixed with increasing aggressiveness. Which is easier of advice than of accomplishment.

"Freddie Welsh has picked up \$66,000 since last July." Or—
As we've said before
And will say again,
The Punch is mightier
Than the Pen.

So far we have been unable to make out whether the Giants and Brooklands are pulling for Rube Marquard to pitch for their ball club or to burdle over into the enemy's lines and stay put.

Judge Landis might be a statesman fan, but he would make a bum umpire. For a gamesman he may show all the speed and power he ever had. But when the Torpedo of Time suddenly hits a vulnerable spot the cavewalker arrives with amazing suddenness. Willard's program should be to hunt cover for the first twenty rounds and then start a blockade mixed with increasing aggressiveness. Which is easier of advice than of accomplishment.

Azvedo Wins
MIDWINTER, Tenn., Feb. 23.—Joe Azvedo, of Oakland, Cal., won the middleweight championship of the world over Frankie Callahan, of Brooklyn, in an eight-round bout here last night.

Tullios Signs 1915 Contract

The latest member of the Crackers is stick his signature to a contract for the 1915 season in Third Base.

Tullios, drafted from the Texas league, Tullios' contract reached local headquarters Monday afternoon. The Texas created a ripple of laughter in the local office a short time since, when he was joined to signing a contract dated on January 15. At his request Manager Smith sent him another under a different date, and he fell in line promptly. Only seven men remain to be signed up now. These are Pitchers Dent and Manning, Catchers Jenkins, Rumber and Jarosch, Shortstop Bieland and Outfielders. Manager Smith has received letters from both Jenkins and Rumber which practically assure that this pair will start at an early date. Jarosch is not considered a serious contender for a regular berth, so no special concern is felt about his signing. There will be no trouble about starting. Dent, since the salary matter was discussed with him before the trade for him was made. However, nothing has been heard from Dent or Bieland, and Manager Smith is getting to the point where he will be an exceedingly well pleased citizen when he sees the contracts of this pair slide into the office.

Trades at the meeting failed to develop in any considerable number. The Mobile club sold Pitcher Bert Keeler to Memphis. This deal was put through by Managers Lord and Schmidt, largely because the finger wanted to stick with Lord. The Memphis pilot dug his up his home town last season, took him to Mobile and made a serviceable pitcher out of him, and the youngster wants to stick with him.

Another deal was projected, which will be of interest to the entire league if it goes through. It concerns Lill Mager, formerly of Birmingham, who was traded to the veteran second sacker, Little Rock failed to win. Owner Bob Allen, of the Little Rock club, is anxious to land Mager, and if he does he will make the ex-warden manager of his club. Allen proposes to trade Southport Black for Mager. The trade appears satisfactory to all parties concerned, and
